Trip Overview

Experience the delights of Lapland at your own pace and in your own way. You have six full days to play within this winter wonderland as well as evenings to enjoy Northern Lights activities so there is plenty of time for you to be as active or relaxed as you wish.

Jeris provides its guests with an idyllic setting in the pine forests of North-West Finland, close to the edge of Lake Jerisjarvi. It's ideally located for exploring the delights of Finnish Lapland as it is surrounded by forested-fells and lies on the perimeter of the Pallas National Park.

As this is a veritable adventure playground the options available to you are varied and plentiful. You choose from leisurely experiences through to adrenaline-fuelled activities.

Dog sledding is a favourite with visitors and we highly recommend that guests include one of the husky safaris during their stay. Snowmobiling is another exceedingly popular option and allows you to explore further afield in a thrilling way so many guests choose to include a safari in their holiday.

More leisurely paced options include snowshoeing and cross-country skiing trips which allow peaceful exploration of the forests. A visit to a local reindeer farm for a cultural experience and a reindeer-pulled sleigh ride is another highlight.

To really top off a stay here, guests can upgrade to spend one night in either a snow room at the Winter Village or in an Aurora Dome at Torassieppi, one of Jeris' sister hotels - see the ['Personalise'](#) section for details.

Of course, relaxing in the Arctic Elements Sauna World (payable locally) is another popular option.

All the available options are listed in the ['Personalise'](#) section of the holiday page and our travel experts will help you plan the ideal itinerary using their first-hand experience.

Please note that some activities require a minimum number of participants to operate, schedules are always subject to change and are subject to availability.

Snowmobile with Net Fishing

After a full safety briefing with 2 people sharing each snowmobile you will depart from Jeris and head to some of the vast frozen lakes nearby. The total driving distance for the day is around 35km and you will be out between 3-4 hours. Your guide will take you to the wilderness location where the nets have been placed and show the group how to pull up the nets to retrieve the catch of the day. This is an ancient method of gathering food during the winter time for the local people and a really interesting activity to be a part of and learn more about. During the activity lunch will be cooked over the open fire

(not dependent on how successful the catch of the day is!) and you will then head back to the hotel.

ACTIVITIES

Arctic Sauna World with Shaman

The newly renovated Arctic Sauna World makes for the ideal little arctic oasis if you want some time to relax during your holiday. Saunas are a huge part of Finnish tradition and culture, with the earliest records dating back to 7000BC! Finns often joke that the sauna is the first room built in any new houses and it is uncommon in Lapland to find a home without a sauna. It really is a huge way of life and a real must-do during your time in Finland.

During this activity, you will learn about the history of the sauna and the traditions of how to relax and connect with nature. Arctic Sauna World was designed around the four elements: Tapio (the earth sauna), Ukko (fire sauna), Ilmatar (air sauna) and Vellamo (water sauna) represent the elements through our mythological gods and goddesses. A traditional local drink will be served and a shaman will make a ceremony calling on the power of the four elements.

This programme is suitable for those aged 4 years and over.

Available: Tuesday at 9.00 pm

Snow Train

Step inside the cosy Snow Train carriage for an Aurora hunt into the wilderness.

Pulled along by your expert guide on a snowmobile, the Snow Train has been cunningly designed with an all-Perspex exterior to give you constant views of the night sky. As you journey further into the darkness, keep your eye out for a potential display.

You'll also stop in a prime location to enjoy hot drinks and continue your search. Your location will be chosen

based on the local weather and Aurora forecast for the evening, giving you the best possible chance of ticking the Northern Lights off your bucket list.

Duration: approximately 2 hours

Available: Tuesday and Thursday at 9pm (Jeris)

Arctic Elements Sauna World

Saunas are a popular and traditional Finnish pastime. The locals use it as a space for relaxation, meditation as well as mental and physical cleanliness - and Jeris is a luxurious spa facility for you to experience this in. What's more, Jeris prides itself on its eco-friendly approach to tourism. For example, geothermal heating is generated from the Jerisjärvi lake, electricity is 100% renewable from wind, water or solar power and the shower water is from the nearby under earth fountain.

The four saunas have been carefully themed on the four elements; earth, air, fire and water, as these are found in all traditions and shamanic wellbeing rituals.

These elements combine to create a fifth, steamy löyly, the spirit of sauna. Each element is represented by Finnish gods or goddesses, as the protectors of the saunas:

Sauna of Tapio (Earth). Tapio is the antlered king of the forest and in this sauna, you will feel the earthy and forest surroundings of the Finnish wilderness. It is split into north, east, south and west, each providing a different kind of löyly.

Sauna of Ukko (Fire). Ukko is the king of all gods and master of lightning, fire and air. This smoke sauna is the most traditional, and a favourite among the Finns. The heating process carries the smoke throughout to create a dark colouring, smokey scent and if you choose, a fiery heat.

Sauna of Vellamo (Water). Vellamo is the goddess of water and the ruler of lakes and rivers. This sauna has a panoramic view over Lake Jeris, a holy place for Sámi people, offering a calming atmosphere. The soft and moist löyly means you can stay in for longer for extended relaxation.

Sauna of Ilmatar (Air). Ilmatar is the goddess of wind, and the first mother in the beginning of times. This sauna has no fire or thick walls - instead infrared heaters are situated inside a traditional kota for a soft and gentle heat. Think of this as half sauna, half relaxation room.

You can also choose to upgrade to the private Northern Lights sauna. Tulikettu is the mystical firefox that lights up the sky and creates the Auroras. This two-storey panorama sauna is ideally situated under the open sky with a 180-degree view over Lake Jeris. The relaxing room on the second floor has an all-sky panoramic window for a clear view of the night sky and if conditions are favourable, the Northern Lights. This sauna is perfect for private relaxation and comes with its own toilets, changing room and showers. Please ask our Artisan Travel Experts if you wish to include the Northern Lights sauna in your package.

The really brave (and healthy) can also take a dip in the icy lake waters - a technique the Finns swear by!
