In Brief

Our Opinion

“ I love Torassieppi and feel very privileged to have seen it transform over the last few years. I first saw the hotel shortly after the Pietikäinen family bought it and again months later following endless hours of love and time dedicated to restoring the rooms and cabins to achieve the traditional, cosy and charming atmosphere and decor guests love during their stay. The hotel is set in such a peaceful location and it epitomises the winter wonderland destination for me – I'm already looking forward to my next visit! ”

Trip Overview

Torassieppi has always been a favourite destination for our guests due to the warm welcome and fantastic hospitality of the owners.

Torassieppi consists of a small collection of winter cottages that are situated next to a traditional reindeer farm. The reindeer farm dates back to the 1840s and is surrounded by snow-topped trees and picture-perfect wintery landscape.

On this tailor-made winter holiday, there is a wonderful range of [activities](#) that you can choose to take part in so you choose to make this holiday as relaxed or as active as you like.

There are plenty of activities to keep you entertained from snowmobiling across the winter wonderland, or joining up with a pack of huskies to be whisked across the snow. Maybe you'll want to try your hand at ice fishing, or snowshoeing and learn about the Lappish way of life.

Torassieppi is also perfectly located to hunt for the Northern Lights, either on around your cottage surroundings or from further afield on one of the many Northern Lights hunts via snowmobile, snowshoe or reindeer! Hopefully, the Aurora will make an appearance for you during your time here!

In addition to all of the above, close to the winter cottages lies Torassieppi Winter Village, constructed of snow and ice each year, the expert carvers create magical snow rooms, a restaurant

and bar area and it is a wonderful sight to behold and certainly worth including in your holiday.

Snowshoe Trip and Arctic Elements Lakeside Spa

You'll take the short minibus transfer to the wonderful Pallas fell area. As the largest fell area in western Lapland and known for its breath-taking scenery, this area is begging to be explored. You'll use snowshoes to walk higher and appreciate the best views.

A visit to the Pallas Nature Centre is also included (depending on opening hours).

After your walk and lunch in Jeris, you have earned the right to relax and where better than in the Arctic Spa. In Finland, the sauna is a place for relaxation, meditation as well as mental and physical cleanliness, and Jeris is a luxurious spa facility to experience this in. What's more, Jeris prides itself on its eco-friendly approach to tourism. For example, geothermal heating is generated from the Jerisjärvi lake, electricity is 100% renewable from wind, water or solar power and the shower water is from the nearby under earth fountain.

The four saunas have been carefully themed on the four elements; earth, air, fire and water, as these are found in all traditions and shamanic wellbeing rituals. These elements combine to create a fifth, steamy löyly, the spirit of sauna. Each element is represented by Finnish gods or goddesses, as the protectors of the saunas:

Sauna of Tapio (Earth). Tapio is the antlered king of the forest and in this sauna, you will feel the earthy and forest surroundings of the Finnish wilderness. It is split into north, east, south and west, each providing a different kind of löyly.

Sauna of Ukko (Fire). Ukko is the king of all gods and master of lightning, fire and air. This smoke sauna is the most traditional, and a favourite among the Finns. The heating process carries the smoke throughout to create a dark colouring, smokey scent and if you choose, a fiery heat.

Sauna of Vellamo (Water). Vellamo is the goddess of water and the ruler of lakes and rivers. This sauna has a panoramic view over Lake Jeris, a holy place for Sámi people, offering a calming atmosphere. The soft and moist löyly means you can stay in for longer for extended relaxation.

Sauna of Ilmatar (Air). Ilmatar is the goddess of wind, and the first mother in the beginning of times. This sauna has no fire or thick walls - instead infrared heaters are situated inside a traditional kota for a soft and gentle heat. Think of this as half sauna, half relaxation room.

The really brave (and healthy) can also take a dip in the icy lake waters - a technique the Finns swear by!

Located on the edge of Lake Torasjarvi, and bordering the Pallas Ylläs National Park, Torassieppi Reindeer Farm is situated in one of the most picturesque wilderness areas in Finland.

Here they offer guests a choice of accommodation, in winter cottage rooms or in detached winter cottages.

Facilities at Torassieppi:

A roaring fire accompanies the evening meals which include as much local produce as possible Typically they are served in a buffet format and include traditional Finnish ingredients such as reindeer (of course dietary requirements are also catered for)
- There is no bar but alcohol can be purchased from the restaurant so it can be enjoyed with your evening meal

Guest room types

Winter Cottage Bedrooms:

There are only 8 rooms at Torassieppi and these are housed within wooden winter cottage buildings which are a short walk from the main restaurant, nestled in amongst the trees. Each room has its own entrance. The rooms are typically twins but can be made up as doubles. The rooms are spacious and have en suite shower rooms, hair dryers a kettle and coffee maker.

Other options

Detached winter cottage:

Torassieppi offers 8 detached winter cottages to which you can upgrade. The cottages are ideal for those who want more space or for larger groups of people. Located close to the main restaurant, they are only a short walk away through the snow-laden trees and close to the frozen lake beyond.

The smaller cottages contain a fireplace, living room area, toilet, shower, hairdryer and kitchenette. There are two bedrooms, one with twin beds and another with three beds (including a set of bunk beds). These can accommodate two to five people, we feel they are ideal for 3 or 4 adults.
